## Dr. Larry Stone Attends American Academy of Dental Sleep Medicine 23<sup>rd</sup> Annual Meeting

(June 2014) – Doylestown, PA – Dr. Larry Stone attended the 23<sup>rd</sup> Annual Meeting of the American Academy of Dental Sleep Medicine, held May 29-31, 2014 in Minneapolis, Minnesota to further his education in this dental specialty. The conference offered three days of educational courses and discussions.

Dr. Stone attended courses on advanced dental sleep medicine and the various treatment modalities for those with obstructive sleep apnea that are not compliant with their Continuous Positive Airway Pressure (CPAP) device, as well as sessions providing guidance on selecting the correct oral appliance for each patient and dealing with children with sleeping disorders.

“I found this conference to offer a wealth of information on the science and treatment of sleeping disorders that will truly benefit my patients struggling with sleep apnea or snoring but are unable to use a CPAP,” states Dr. Stone.

The American Academy of Dental Sleep Medicine is the only non-profit national professional society dedicated exclusively to the practice of dental sleep medicine. The AADSM is the leading national organization for dentists who use oral appliance therapy to manage sleep-disordered breathing, which includes snoring and obstructive sleep apnea. Dr. Stone became a member of this academy earlier in the year.
